
Seminar 2016

Amyloid aggregation from nanoseconds to decades

Jeremy Schmit
Assistant Professor
Department of Physics
Kansas State University

Research Area

Theoretical Soft Condensed Matter and Biological Physics

Protein phase behavior

Protein crystallization

Amyloid fibril formation

Drug formulations

Self-assembly

Monday April 18, 2016

4:00 PM

Laufer Center Lecture Hall 101

Host: Ken Dill

Refreshments following seminar
